

9.10a Quadratic sequences

First I'd like you to watch this video:

<https://www.loom.com/share/3eb364ad568d4666850352cf92aa6e90>

It's about 15 mins long and explains how to do the attached questions.

Then have a go at these questions:

There is a real mix of work here, the questions get harder as you go through the paper so I'm not expecting everybody to do all of the questions. **I would like everybody to have a go at 6 questions. If you would like to do more, that's absolutely fine.**

The answers are here to check how you are getting on. If you are having any problems, then get in touch with me via email and I'll get back to you as quickly as I can.

This is due in on Monday 15th June.
